Introduction

BetX is a decentralized sports insights & betting ecosystem built on Solana. We combine tipster-driven predictions, on-chain transparency, and tokenized rewards to reimagine how fans engage with sports. Our mission: *Empower the community with reliable tips, fair competition, and shared rewards.*

Problem

Conventional betting platforms lack transparency, rely on unverifiable tipsters, enforce high fees, and restrict global participation. Users cannot audit performance or fund flows, which fuels mistrust.

BetX Solution

BetX provides a community-owned hub with on-chain leaderboards, transparent odds & treasury, and token incentives. Holders stake BETX to unlock premium tips, earn rewards, and participate in governance.

Core Features

Tipster Leaderboard: Ranked by ROI, win rate, and volume. Seasonal rewards. **Premium Tips Access:** Stake to unlock expert insights. **Selective Betting (Phase 1):** Curated markets to ensure quality & liquidity. **Prize Pools:** Ecosystem fund supports competitions & jackpots. **DAO Governance:** Holders vote on listings, fees, and new sports.

Token Utility (\$BETX)

Access to premium tips, fee discounts, staking rewards, governance rights, and targeted liquidity for specific markets. Utilities expand as phases roll out.

Tokenomics

Total supply 100,000,000 BETX. Taxes 0% on buys/sells (subject to DAO). Initial liquidity target 60–70% of raise, locked for 12 months.
